## SUMMARY

Frontend Developer skilled in building user-focused web applications with clean, component-based interfaces. Experienced in API integration, collaborative development, and delivering efficient, reliable UI solutions.

## WORK EXPERIENCE

### Junior Frontend Developer

Aug 2025 - Present

Toshal Infotech

Surat, India

- Supported major frontend version upgrades by fixing component compatibility issues, replacing deprecated Bootstrap table features with custom pagination, and resolving TypeScript and MUI styling conflicts.
- Integrated Easebuzz payment gateway to enable secure online transactions, implementing payment initiation, callback handling, and transaction status verification to ensure reliable order processing.
- Integrated ChatGPT API to enable AI-powered creation and refinement of social media content, including regeneration, grammar correction, and contextual editing of user-selected text portions.
- Improved application performance through advanced optimization techniques, including lazy loading and memoization strategies.

### MERN Developer Intern

Nov 2024 - May 2025

Toshal Infotech

Surat, India

- Developed the MS-Intern platform's frontend from scratch using React.js and Ant Design, implementing role-based interfaces for Admin and Intern workflows.
- Contributed to backend development for key modules, including authentication, To-Do management, and Work Policy, ensuring seamless integration with frontend features.
- Built core functionalities such as Time Log tracking, Progress Reports, and the Monthly Summary UI while maintaining structured state management, routing, and modular component architecture.

## PROJECTS

### Shreeji Veg – Freelance Project(React.js, TypeScript, Redux Toolkit, AntD)

- Developed a clean and intuitive ordering interface with date-based ordering, auto-generated order numbers, and item-wise quantity inputs.

### MS-Intern – Intern Management System(MERN STACK)

- Built the complete UI and contributed to backend features such as authentication, role-based access, and workflow support.

### HireHub – Job Seeking Platform(MERN Stack)

- Built a job portal that allows users to browse and apply for jobs, with features such as job filtering, application history, and real-time status updates.

## EDUCATION

### Bachelor of Science in Information Technology

Surat, India

- CGPA: 9.43 - Saravajanik University

June 2022 - May 2025

### Higher Secondary Education

Surat, India

- 12th - T. & T. V. Sarvajanik High School
- 10th - St. Joseph English Medium School

June 2021 - May 2022

June 2019 - April 2020
